

**Our company is pleased to offer you services in the field of interior design.**

“EJ Interiors” has a London based office with European type of management and headquarters in Novi Sad – Serbia. Company provides wide range of services such as: manufacture of complete interiors, furniture and accessories, construction joinery, contractor’s services of highest quality on a “Turnkey” system and support in cooperation in the field of furniture design, furnishing, lighting and interior for any surroundings - commercial, corporate, private or residential.

Due to the individual approach in production, “EJ Interiors” is able to respond to the widest range of requests in terms of design, shape and dimensions of the desired product, regardless whether you need a piece of furniture, doors, windows or completely equipped and furnished high-class facility.

We deal with projects such as hotels and restaurants as well as commercial projects as offices, public spaces and lobbies. Orientation towards engineering is a significant innovation comparing to classic interior design and clear evidence that our philosophy of constant improvement keeps us in leading position in this domain.

The company was established more than 25 years ago and it covers areas of Sales & Marketing, Project Management, Procurement, Business Development, Design, Administration & Accounting. Our experts have considerable experience in the field of interior design and production of construction joinery and furniture. From our headquarters in Serbia, we operate throughout the world, especially in the United Kingdom, Kazakhstan, Russia, France, Germany, Austria, U.A.E, Ukraine, Azerbaijan, Uzbekistan, Belarus, Montenegro and other countries. Our extensive network of branch offices around the world enables us to meet different and specific needs of our clients, using the latest products and modern design from around the world.

We aim to recognize the charm and unique character of any space and based on that to create complementary aesthetics of the interior. Our rich experience in the field of interior decoration supports us in offering superior quality services on a “Turnkey” system. For providing these services, we have a team of architects and engineers who understand the specific needs of clients and offer solutions accordingly. Our professionals also make sure that all projects are accomplished within the specified time limit.

Our goal is also to create unique and innovative solution that will be perfect balance between functionality and aesthetics. We remain committed to provide the best services to our clients even after completion of the project. We engage our clients in design process as their needs drive the solution and accuracy of the delivered product. Guided by our clients’ objectives, each assignment is approached with a distinguishing philosophy - to create unique, imaginative, functional and invigorating spaces while maximizing and sustaining investment return.

We achieve results with breath-taking concepts that benchmark the high standards and quality of lifestyle for our clients.

Properties of our company are distributed on 4 locations in the city of Novi Sad, with production plant of over 45,000 m<sup>2</sup>, divided into the following sections:

- *Engineering*
- *Manufacture of Standard doors*
- *Manufacture of Exclusive doors*
- *Manufacture of Interior items*
- *Manufacture of Windows*
- *Manufacturing Centre for Aluminium Composites*

We employ more than 500 persons, with more than 40 architects, designers, engineers and other professionals. We are well known as contractor at high level projects, such as: residences, palaces, villas, castles, hotels, banks and business centres.

We are proud of what we have accomplished, but we are never satisfied. We constantly evaluate our products, services, systems and ourselves, and we constantly improve our organization in each of these areas.

The ownership structure of the company equals to 100% privately owned.

## Policy of quality and environmental protection:

High level of technical standards

Depending on your requirements, environmental conditions and specific characteristics of the market where our company should install ordered products, we can propose various variants of technical features that are optimal for given conditions and ensure long-term quality and functionality.

Energy efficiency, soundproofing, anti-theft, fire-resistance, climate change resistance...these are just some of the additional features that further describe the quality of products / services of "EJ Interiors", as evidenced by the aforementioned certificates of accredited European laboratories:

- Certificate ISO 9001
- Certificate ISO 14000
- Certificate EU for fire-resisting door – National Institute „CSTB“, France
- Certificate EU for fire-resisting door – Institute „ZAG“, Slovenia
- Certificate for fire-resisting door – Institute „ELEKTROSERT“, Russia
- Certificate for quality – Institute „IMS“, Belgrade, Serbia
- Fireproof door Test Reports „Exova“, Warringtonfire, UK
- Fireproof door Test Reports „BM TRADA“, London, UK

## Awards:

The awards received for maintaining business quality are the best advertisement for the company:
